

CarbonCast - Carbon Footprint Report

Generated: 2026-07-01T12:31:21.921029

Predicted Annual Footprint: 337.21 kg CO2

Carbon Score: 32.56 / 100
Category: High

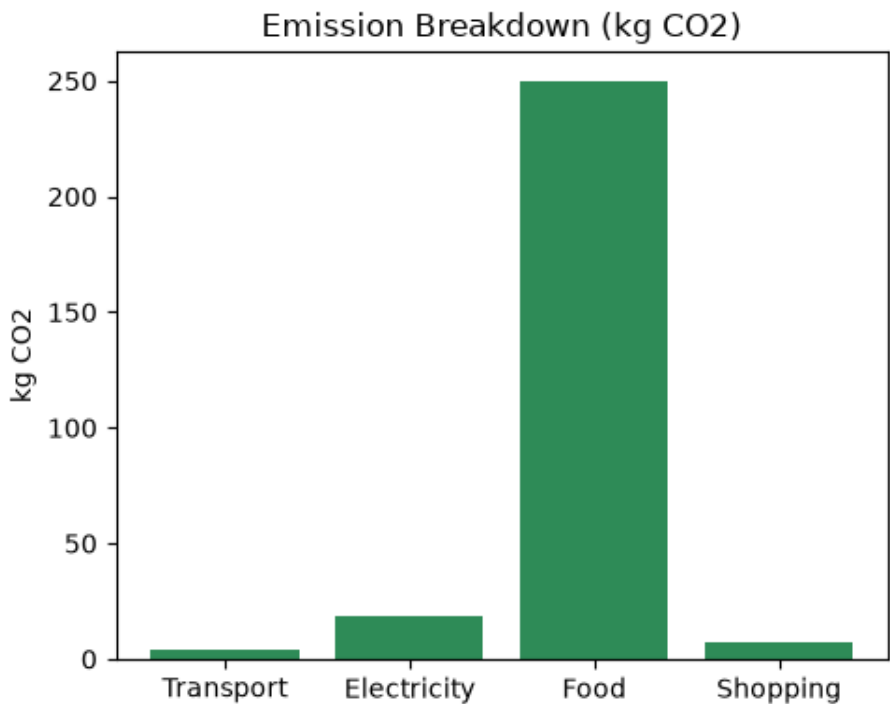

Insights

Highest emission source: Food
Lowest emission source: Transport
Average emission: 84.3 kg CO2

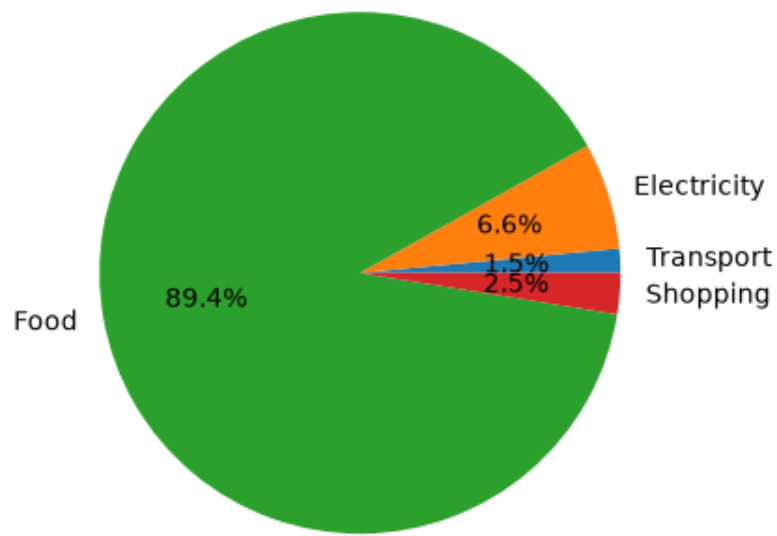

Recommendations

- Reduce meat consumption a few days a week.
- Choose locally sourced, seasonal food.
- Minimize air travel where possible.
- Install LED bulbs to cut electricity use.
- Switch to a renewable energy provider.
- Unplug idle electronics to save power.
- Avoid unnecessary shopping and impulse buys.
- Buy second-hand or refurbished items.
